

NET BAGGING MACHINES

DESCRIPTION

Designed and manufactured in Australia to handle free and semi-free flowing products with limited operator interaction. The Accuweigh range of Net Weighers is available with a variety of in-feed options to handle almost any dry product.

The unit is totally electronic from the load cells to the weigh indicator, which allows seamless interfacing with on-site computer management systems, if required.

ASSEMBLIES

- Two-Stage Gravity Feed
- Two-Speed Conveyor Feed
- Two-Stage Auger Feed
- Gravity Gate, Vibrator Feed

TWO-STAGE GRAVITY FEED

This feeder is generally utilised for free flowing products such as grains, seeds, pellets, etc.

TWO-SPEED CONVEYOR FEED

This feeder also incorporates a manually adjusted depth gauge to provide an even bed depth. Generally used on semi-free flowing products such as flour mixes, stock-feeds, etc.

TWO-STAGE AUGER FEED

Used for aerated products that would tend to fluidise and flow through conventional feeding systems. Common products include flours, cements and some refractory mixes.

FEATURES

WEIGH HOPPER ASSEMBLIES

The weigh hopper assemblies are mounted within readily accessible enclosures. Access is provided on all sides with hinged removable doors.

Single and twin hopper units are available.

Modular construction is employed such that any in-feed assembly can be mounted above any of the weigh hopper assemblies.

SINGLE-HOPPER NET WEIGHER

TWIN-HEAD NET WEIGHER

WEIGH CONTROLLER

All units are fitted with the Australian-made Rinstrum (formerly Ranger Instruments) weigh controller.

Facilities such as totalised bag count, accumulated bag weights and 99 memories are all standard features of this unit.

WEIGH CONTROLLER

CONVEYOR FEED NET WEIGHER

BAG CLAMPS

- Dust Tight
- Quick Clamp

DUST TIGHT

Dust Tight takes the form of a pecan shape with a rubber seal clamped around the perimeter of the bag, generally used on dusty products where low bag placement speeds are required

QUICK CLAMP

Utilises two parallel clamp faces and clamps from the inside out. Used where high bag placement speeds are required. Can be fitted with extraction facilities.

DUST TIGHT BAG CLAMP

WHY CHOOSE ACCUWEIGH?

Accuweigh is one of the largest scale companies in Australia with branches in all major capital cities.

- Accuweigh has a long history with industrial weighing, filling, packaging and inspection systems; from initial design to manufacturing, installation and after sales service.
- Accuweigh is a successful national company with branches across Australia; our ability to provide local support in all states is a distinct advantage for our customers.
- Accuweigh manufactures many of its own industrial weighing and filling products to ensure we can provide high quality equipment to customer specifications.
- Accuweigh is not limited to a single brand of products – we can provide the product that gives the optimal cost/performance ratio to suit each application.
- Accuweigh is a soundly run business with strong financial backing that invests heavily into staff and new technologies; ensuring we can meet all of our customers' existing and future needs.
- Accuweigh is extremely proud of its staff, many of whom are recognised experts in their fields. Our regimented in-house training ensures all our staff is kept up to date with industry changes while also retaining much valued experience on older products.
- Accuweigh focuses on building partnerships with our clients to the mutual benefit of both parties; we are here for the long term.
