

HJ-150 POCKET BALANCE

Capacity
150g x 0.1g

The HJ-150 compact scale is suitable to carry with you anywhere in your pocket, bag or briefcase!

HIGHLIGHTS

- **Compact Design**
Easy to carry in your pocket, bag or briefcase and measurement can be done even in extremely cramped conditions (66mm x 98mm).
- **Selectable Weighing Unit**
Meet any weighing application by choice of weighing unit of grams or ounces; simply change unit by pressing a button on the under-side of the scale.
- **High Weighing Resolution**
Precision weighing of 150 x 0.1g or 5.29 x 0.01oz.
- **Tare Function**
One touch tare function enables the user to use a container for net weighing.
- **Battery Operation**
Uses 2 x AAA alkaline batteries for easy transportation.
- **Large LCD Display**
Easy to read the 8mm high 7-segment LCD to prevent reading errors.
- **Light Weight**
Only 100g in weight (including batteries).
- **Auto Power Off Function**
To save battery consumption for a long battery life, it automatically turns itself off after 30 seconds of the display showing "0.0g", and after 2 minutes when the weighing is stable.
- **Backlight Function**
Beautiful blue backlight makes reading the display easy even in dark weighing conditions.
- **Standard Calibration Mass**
Standard calibration mass of 100g comes provided with the HJ-150 in its carton box to save you from purchasing a calibration mass separately.
- **Calibration Function**
One-touch calibration with the standard calibration mass provided makes scale calibration extremely easy for accurate weighing.
- **Protective Cover**
Protects the weighing pan from overload and shock-load when it covers the scale; the protective cover can also double as a weighing container to be used to measure small objects.
